

A FEW THINGS TO GO OVER & INSTALLATION INSTRUCTIONS

Your rights to this script is for personal use only

You can make modifications/updates/changes to this script for your own benefit

You cannot sell the mods or the modified script to anyone

Also, a STRONG recommendation...

If you need a domain name I recommend [NameCheap](#)

Do not host your site with Hostgator, Kiosk Go Daddy or GDI as they have a strict email policy and will shut you down once you start mass emailing your members.

Recommended hosting is [HawkHost](#)

Installing

Step 1:

Create a MySQL user and MySQL database in cPanel.
Make note of this information.

Step 2:

Open connect.php
Put your mysql login information in the designated places and save the file.

Step 3:

Upload all the contents within the EZMembershipScript folder onto your server
(except this ReadMeFirst file & except for the install.sql file).

Step 4:

Go in the cron job tab of your hosting control panel, select Standard.
You will insert this entry:

Command:

```
php -q /home/PATH_TO_YOUR_SITE/admin/update.php
```

(you will need to change "PATH_TO_YOUR_SITE") its usually:

```
php -q /home/CPANEL-USER/public_html/admin/update.php
```

but check with your host if you are not sure

Minute(s): 0
Hour(s): 0 = 12 AM/Midnight
Day(s): Everyday
Month(s): Every Month
Weekday(s): Every Week Day

Step 5:

Import install.sql in phpmyadmin

Step 6:

Login to: <http://YourSite.com/admin>

Admin ID: Admin

Password: admin

Go directly to Settings and update your website's url box- Then SAVE***

It will be the 2nd box from the top labeled "The url to where your script is installed including http:// (no trailing '/')"

For images:

the footer is in: images/footer.jpg

the header is in: images/header.jpg

For your promo banners, upload them to the "images" folder and then enter the banner url's under the "Add Promo Banners" button

PHP version 5.6 or later.
